

CRUSHED TO DEATH  
BY A FALLING ROCKCOAL MINERS KILLED AT  
THEIR WORK.

**Fearful Loss of Life in a Coal Pit Near Carmel, New York—Victims Most All Italians and Austrians and Were Known by Numbers Rather Than Names.**

Carmel, N. Y., Nov. 30.—An accident, resulting in the loss of thirteen or fourteen lives, occurred at the Tilly Foster mines a little after 3 o'clock yesterday afternoon. Foreman Patrick was descending into the pit to take the time of two gangs of laborers, numbering about thirty-five men, who were working at the bottom, when a vast weight of earth and rock slid with the force of an avalanche from the mouth of the pit to the bottom, a distance of three hundred feet. The earth crashed over the men with tremendous force. Out of one gang of eleven, only five came out alive, and three of the men employed in another gang were taken out dead. Among those known to be dead are:

MICHAEL GANNON, foreman.  
PATRICK H. MURTHA, foreman.  
JOHN FAGAN, boarding-house keeper.

THOMAS DENNIS.  
JAMES SMITH.  
AN AUSTRIAN, name unknown.  
NO. 234.

An Austrian, known as No. 394, received a fracture of the skull, and will probably die.

The names of the others killed are at present unknown. Several of the workmen were seriously injured.

The cave-in caused the greatest excitement, but as soon as possible gangs of men were set to work to remove the bodies of those known to be under the masses of earth. Superintendent Tompkins and Foreman Lynch took charge of the work, and up to 5 o'clock five dead bodies had been brought up to the surface. Murtha was taken out alive, but he died five minutes after he was taken home. Darkness prevented the continuing of the work of rescue. It is thought that all the others in the pit are Italians and Austrians. There was some difficulty experienced in identifying several of the bodies owing to the terrible disfigurement they had undergone.

All of the bodies were horribly mangled, the sharp edges of the rock and iron tearing through their clothing and peeling the flesh from their faces and bodies. One by one the bodies were brought out and carried to the carpenter shop, where an awe-stricken crowd of people looked upon the remains and uttered exclamations of woe when the identity of the victim was made known. Some of those assembled sought anxiously after a friend or relative supposed to be in the ruins of the pit.

Many accidents have occurred at the Tilly Foster mine, but none has been attended by so great a loss of life as this.

William Oस्पell and four companions succeeded in getting away by running. Five Italians also got out alive. One of the Italians who went down on the cable car for the purpose of rendering assistance was killed by a second fall of rock. Despite the dangers, Patrick H. Kelley and J. McGinn descended the mine in the car. They succeeded in organizing the frightened men who had not been killed outright, secured tools and commenced to remove the bodies.

The bodies believed to be in the pit are those of James Fox Bachelor, better known as James Smith; James Clark, a stranger, who began work on Nov. 13, and four Italians, Nos. 13, 56, 331, and 234.

The accident is supposed to have been caused principally by the heavy rains which opened crevices in many places. The mine is owned by the Lackawanna Iron and Coal Company of New York and Scranton, Pa. Clinton Stephens is the contractor in charge and the men killed and injured were in his employ.

## MAY LEAVE THE ORDER.

**Canadian Knights of Labor Said to Be Dissatisfied.**

Toronto, Ont., Nov. 30.—Considerable excitement was caused in labor circles here by a report from Montreal that the Knights of Labor there had decided to secede from the general assembly and form a purely Canadian order. This action on the part of the Quebec knights was unexpected, the complaints against the general assembly having all come from Ontario labor men. It is now a foregone conclusion that the Ontario knights will also secede from the general assembly, in which event they will join Quebec and form a Canadian order. The chief complaint against the general assembly has been the manner in which the officers were elected, many claiming that several appointments were illegally made. There are about 5,000 Knights of Labor in Canada.

## A KENTUCKY DUEL.

**Southern Gentlemen Vindicate Their Honor by a Fight.**

Mount Sterling, Ky., Nov. 30.—A terrible battle took place at Hazel Green, Wolfe county, yesterday between John Williams and David Rose, two prominent and wealthy stock traders. Williams was killed and Rose is in a dying condition. They fell out during a settlement.

## SECRETARY LAMONT'S REPORT.

**Thinks Changes Are Needed in Laws Relating to the Militia.**

Washington, Nov. 30.—In his annual report of the operations of the war department Secretary Lamont makes many important suggestions for the improvement of the service. He says: "The efforts of recent years to bring the army into closer relations with the national guard of the states may now be regarded as having established a permanent union between the two forces, advantageous to both. The conditions are favorable to the development of a volunteer force upward of 100,000 men, of the highest efficiency and prepared for any service. Legislation, however, is necessary to put to the best use the relations which have been established between the army and the troops of the states. The laws of the United States relating to the militia were enacted in 1792, and need thorough revision and renovation to bring them into accord with present requirements."

Considerable space is filled by the secretary in considering the question of seacoast defenses, dynamite guns, etc., and river and harbor improvements and numerous other subjects are considered.

## The Senate Reorganization.

Washington, Nov. 30.—There is a growing probability that the republicans at their caucus on next Monday will decide to attempt to reorganize the senate on republican lines and that a candidate for president pro tem. will then be decided upon. So far, Senator Frye's name is the only one heard in connection with the office of president pro tempore, but there are several aspirants for the other offices. Senator Harris, of silver convention fame, has called a meeting of his committee of six. The members are Senators Turpie and Jones, Hinrichsen of Illinois, and Casey, Young and Stone of Missouri. The latter, however, has notified Senator Harris that Cockrell of Missouri will act as his proxy.

## Working for Hinshaw's Pardon.

Indianapolis, Ind., Nov. 30.—C. A. Robinson, president of the Farmers' Mutual Benefit association of the state, presented to Gov. Matthews yesterday an application for the pardon of the Rev. William E. Hinshaw, sentenced to the state prison for life for the murder of his wife. The governor did not give Mr. Robinson much encouragement. He indicated that he will not consider the case until after the supreme court has passed upon it. Many of the people in Hendricks county who were formerly bitter against Hinshaw are signing the petition for the pardon.

## Postoffice Robbers Felled.

St. Joseph, Mo., Nov. 30.—Three men who were heavily armed and who had planned to rob the postoffice at Anna, a railroad station south of the city, were arrested by the police last night. They were E. D. Ware, Walter Van Loon, and Charles Simon. The men confessed that they had planned to rob the postoffice, knowing there was a considerable sum of money there. Simon claims to have acted the part of a spy, and says he informed Deputy United States Marshal Smith of the plan. Smith and a constable were guarding the postoffice, and were to shoot Van Loon and Ware when the signal was given by Simon.

## Indiana Democrats to Get to Work.

Indianapolis, Ind., Nov. 30.—The Indiana Democrats will take the first step in the organization of the party for the campaign of 1896 when the state central committee assemblies in this city, Dec. 11. Letters received from chairmen of the local committees by Chairman Taggart indicate that the Democrats are anxious to put on the campaign harness and get to work as soon as possible, and it has been urged that the activity of the Republicans should find a counterpart in the activity of the Democrats.

## Serious Fire at Arcola, Ill.

Arcola, Ill., Nov. 30.—The worst fire that has occurred in this city since September, 1880, when nearly half the town was consumed, took place yesterday when the broomcorn warehouses of George N. Howell & Co. of Philadelphia and L. B. Chamber & Co. of this city were destroyed, together with about 500 tons of broomcorn. Total loss estimated at \$50,000. Three freight cars on the Vandalla side track also burned.

## Nine Cardinals Created.

Rome, Nov. 30.—The pope presided at the secret consistory and created nine cardinals, namely, the Archbishop of Lemberg, Salsbourg, Valladolid, and Bourges; Mgr. Satolli, the papal delegate to the Roman Catholic church in the United States; Mgr. Goth, the inter-nuncio to Brazil, and the Bishops of Autun, Urgel, and Ancona. His holiness then preconized twenty-four Italian bishops.

## American Missionaries Safe.

Washington, Nov. 30.—The state department has advised from Minister Terrell stating that the missionary school of France at Marash was burned on the 19th, but that the missionaries are safe. He also telegraphs that the Aintab college is protected.

## Senator Cullom Not a Candidate.

New York, Nov. 30.—Senator Cullom was in town yesterday and discussed political matters with the newspaper men. He said he was not a candidate for the presidency in any sense of the word.

THE TRADE REVIEW  
SHOWS SHRINKAGE

## PRICES HAVE GONE DOWN DURING THE WEEK.

**The Natural Result of the Period of Inaction in Business—Cotton and Wheat Held Back in the Hope of Better Figures—The Trade of the Week.**

New York, Nov. 30.—R. G. Dun & Co.'s Weekly Review of Trade says: "Business has not improved, though there is little change, except in the shrinkage of prices, which a period of inaction naturally causes. After the extraordinary buying of the summer and early fall, a marked decrease was inevitable, and it is yet too early in most branches of business to judge how far the future was anticipated in purchases. Retail stocks are still reported full in nearly all branches, with delayed distribution in many on account of unfavorable weather. The movement of crops is only fair, both cotton and wheat being largely kept back in the hope of higher prices, and there is a prevalent feeling that foreign imports will fall off."

"The woolen business makes scarcely any gain, although clay worsteds are largely sold at the advanced prices recently made, and some dress goods and overcoatings at prices partly higher and partly lower. The sales of wool, which, to a large extent, represent speculation and supplies for the future, rather than present consumption, have been, at three chief markets during the past four weeks, 24,295,050 pounds, against 16,129,100 pounds last year, and 27,371,821 pounds in 1893, and 21,457,600 pounds in the same week of 1892."

"The iron market is decidedly weaker again, and, while Bessemer pig has declined to \$12.85 at Pittsburgh, and gray forge to \$12.25, and plates at \$1.60, at Philadelphia, so that the average of all quotations is about one-half of 1 percent lower than last week, the markets are really much weaker than the quotations, as concessions are generally given by manufacturers in order to do business. The coke combination holds prices firmly, but it has been obliged to reduce its output to five days in the week, so that a decline of 10,380 tons for the week is recorded. Offerings of copper are less urgent at 11 cents for lake, but tin is weaker at \$4.25, because of heavy supplies, while lead is a shade stronger at \$3.67."

"The Western receipts of wheat continue larger than last year, being for the week 4,505,201 bushels, against 3,565,404 bushels a year ago, and for four weeks of November 29,992,512 bushels, against 15,880,078 last year. As before, Atlantic exports are relatively small and for four weeks have only been 8,267,106 bushels, flour included, against 6,742,495 bushels last year. It is evident that with such movements higher prices can hardly be expected, nor can the exchange situation be favorably affected. During the past week failures have been 279 in the United States, against 289 last year, and 47 in Canada, against 36 last year."

## BONDS ARE WORTHLESS.

**Decision of an Indiana Judge Will Prove Costly.**

Logansport, Ind., Nov. 30.—The circuit court of Pulaski county yesterday made a ruling which will have the effect to render worthless hundreds of thousands of dollars of bonds which have been floated by counties in this state during the last four years. By an act of the general assembly of 1891, it was provided that where it was necessary to construct ditches which extended in two or more counties the commissioners of the different counties should meet in joint session for the purpose. This was a much needed law, and, acting upon it, many counties floated bonds for the construction of such ditches. The ditch upon which the decision was made was known as the "Hendee Ditch." Bonds for its construction were floated by the county to the amount of \$16,000, and bonds in other cases bring the aggregate up to nearly \$100,000. By the ruling of the court the law is declared unconstitutional and the county will have to cease collecting the assessments for the construction of the ditches. The loss will therefore fall upon the bondholders, most of whom are Eastern capitalists. The case will be taken to the supreme court.

## Cuban Insurgents Use Dynamite.

Havana, Nov. 30.—A dispatch received here from Puerto Principe announces that the insurgents have blown up with dynamite the engine of a train in the vicinity of Nuevitas, that province. The engine was demolished, the engineer and two firemen were terribly mutilated and seven passengers were injured, among them being the widow of ex-Gen. Yglacio Agrumete. A column of troops had a skirmish with a band of insurgents in Sancti Spiritus, killing five of them.

## To Get Durrant a New Trial.

San Francisco, Nov. 30.—Attorneys for Theodore Durrant occupied both sessions of court yesterday with the reading of the prisoner's affidavits, on which will be based a motion for a new trial. More affidavits will be presented Monday before argument of the question is heard.

OVERRIDE THE LAW  
AND HANG TWO MEN

## SUMMARY ACTION OF A TENNESSEE MOB.

**Two Negroes, Duly Convicted and Sentenced, Lynched at Fayetteville—Troops Unable to Reach the Scene of the Tragedy in Time to Avert Violence.**

Nashville, Tenn., Nov. 30.—At 8 o'clock last night Joseph Robinson and Ozias McGahey, both negroes, were taken from the jail at Fayetteville and hanged by a mob composed of people from Lincoln and Marshall counties. The negroes had been taken from Nashville to Lewisburg, Marshall county, in the morning, tried for attempted assault, convicted, and sentenced to the full penalty of the law, and a train had been held to take them to Tracy City.

At Fayetteville, in the adjoining county, a mob held up the train, forced a sidetracking of the car containing the sheriff, guards, and prisoners, over the protest of leading citizens. The sheriff then placed the prisoners in the jail, from which they were taken.

At 7:30 o'clock last night Governor Turney received a telegram from the sheriff, calling for troops. One hundred of the state guard were speedily under arms and at the station, ready to leave at 9 o'clock. At 8:15 a telephone message was received saying that the jail had been stormed and the prisoners had been lynched.

## SULTAN STILL STUBBORN.

**Will Not Grant the Demands of the Powers—Force May Be Used.**

London, Nov. 30.—A Constantinople dispatch to the Times says that the diplomats there appear less confident of carrying their point for the admission of a second garrison for each of the powers into the Dardanelles. "The sultan seems to consider," the correspondent of the Times continues, "that the fact that such a small concession is demanded proves that the powers are not in agreement on the subject and that he is therefore safe in refusing the firmans. Should the sultan's opposition prevail Christian and foreigners will be placed in a position of great danger."

The Chronicle's Constantinople correspondent says: "Palace friends report that the sultan is drinking heavily during the last few days, which does not tend to improve his mental condition. He shows signs of yielding to the demand for additional dispatch boats."

The Speaker's Constantinople correspondent thinks that 10,000 people have been killed in a dozen different towns within a week and that this is probably an underestimate, while the work of destruction still continues. "All the massacres are the deliberate work of the palace government," this correspondent affirms, "and the simple object is to exterminate the Christians."

The ambassadors hold that further submission to the caprices of the palace would be a serious mistake upon the part of the powers, and as this dispatch is sent they are anxiously awaiting final instructions from their governments to proceed to reinforce the foreign warships here without the sultan's consent, which would mean that the foreign fleets would be called upon to escort the extra gunboats through the straits of the Dardanelles, even if a bombardment of the forts should be necessary.

## Chicago Confident of a Convention.

Chicago, Nov. 30.—It is practically settled that the republican national convention will be held in Chicago. J. Irving Pearce, who is at the head of the movement to bring the convention here, said last night that he was confident it would come to this city. The maximum amount of money to be raised for the convention is \$100,000. It is possible that the sum of \$75,000 will be sufficient to meet the needs of the national committee. A guarantee fund of \$100,000 is required, however, in order to meet any emergency which may arise. For instance, it is not impossible that the local committee may be compelled to construct a temporary building in which the sessions of the convention may be held.

## Miners Don't Want a Strike.

Phillipsburg, Pa., Nov. 30.—At a meeting of miners at Osceola mills it was decided to send a committee into each of the regions competitive with the Beach creek region, in order to have all the miners unite in a movement to bring about an advance in wages early next spring. A resolution declaring against a strike was adopted, and also advising against any action by one of the districts unless all united in the effort. The movement, if successful, will bring an advance to 25,000 miners.

## Telegraph Wires Torn Down.

Webster City, Iowa, Nov. 30.—Special officers are scouring the country for men who tore down several miles of telegraph wire used by the Postal Telegraph Company and the telephone exchange Thursday night for spite. The line destroyed is between this city and Kamrar, and after 11 o'clock the offices are not open at either end of the line. A reward of \$100 has been offered for the apprehension of the miscreants.

## ILLINOIS MURDERER HANGED.

**"Pacer" Smith Pays the Full Penalty for His Double Crime.**

Decatur, Ill., Nov. 30.—Charles N. Smith, known to fame in base ball circles as "Pacer" Smith, was hanged at noon in the corridor of the county jail here for a double murder. His victims were Louise Smith, aged 6, his daughter, and Miss Edna Buchert, aged 17, his sister-in-law. The murder was committed on Sept. 23 of the present year. The murderer confessed and was sentenced to hang by Judge Vail fifteen days after the crime was committed.

Smith walked to the gallows holding a crucifix to his lips and attended by Fathers Mackin, Higgins and Brady of the Catholic church. Sheriff Nicholson pulled the lever, and Smith dropped while repeating the Lord's prayer. His neck was broken and the attending physicians pronounced him dead in less than six minutes. Three hundred people witnessed the hanging.

It has been known for several weeks that Smith had voluntarily stated that he knew all about the robbery of William Florey, Dec. 24, 1894, when the old man was held on a red-hot stove and tortured into telling where he had \$1,500 hidden away. Smith confessed that he in person held Florey on the stove and that there were five other persons in the job, one a dissolute woman, who stood watch. It was thought that he would make a full confession, so that the parties could be arrested, but he weakened, claiming that there were two good friends of his in the job, whose names he could not give up.

## TRADE WITH THE ORIENT.

**San Francisco Manufacturer Makes Some Important Suggestions.**

San Francisco, Cal., Nov. 30.—Irving M. Scott, general manager of the Union Iron Works, who recently returned from Japan, makes the following statement as the result of recent publications in American newspapers on the subject of extending the field of American manufacturers of war material to oriental countries. Mr. Scott said: "If the United States expects to succeed in competing with other nations for trade in that part of the world, the press of the country should be more modest in the praise of its manufactures, more fair in its criticism of those of other nations, and less ready to insinuate unworthy motives on the part of the Japanese as a reason for lack of immediate encouragement. Many United States journals reach there, and the effect of this style of writing is to be deplored. The oriental nations are notoriously slow in forming business alliances with foreigners. Competition is extremely close. The expert agent of one of the most important ship building firms in the world was in the orient three years before he had secured a single contract."

## Want to Hear Carlisle.

Richmond, Va., Nov. 30.—The Richmond chamber of commerce last evening adopted a resolution inviting Secretary of the Treasury Carlisle to deliver a speech here next month on the "Finances of the Country." A committee was appointed to inform Mr. Carlisle of this invitation. No date is mentioned in the resolution for the proposed speech. It is generally admitted that a majority of the members of the assembly are inclined to favor free silver. It has been said that an attempt would be made by the friends of that side to get that body to pass a resolution committing itself on that question. There is much opposition to such a step, however.

## Will Fight the Sugar Trust.

Syracuse, N. Y., Nov. 30.—Attorney E. N. Wilson of this city has filed with Attorney General Hancock a petition on behalf of John Moore & Co. and Andrews Bros. of this city, and Thomas Kingsford's Sons of Oswego, against the American Sugar Refining Company, asking that that company be prohibited from doing business in the state of New York, the claim being made that the American Sugar Refining Company is a trust.

## American Missionary Safe.

New York, Nov. 30.—News has been received here of the safety of William Willard Howard, who was supposed to have been murdered by the Kurds while on a mission of mercy to Armenia. Mr. Howard was sent to Van several months ago by the Christian Herald of New York to distribute a relief fund of \$12,000 contributed by Americans for the benefit of the Asia Minor sufferers.

## Bradstreet's Wheat Report.

New York, Nov. 30.—Bradstreet's says: "Exports of wheat, flour included as wheat, from both coasts of the United States and from Montreal, amount to 2,360,000 bushels, as compared with 2,916,000 bushels last week; 2,667,000 bushels in the week a year ago; 2,440,000 bushels two year ago, and 4,533,000 bushels in the week three years ago."

## More Convicts Implicated.

Jackson, Mich., Nov. 30.—The examination yesterday of Curley, Huntley, and Boot, alias Archer, the three ring-leaders of the prison insurrection Tuesday, charged with attempting to murder Deputy Warden A. C. Northrup, elicited evidence implicating Convicts O'Neil from Detroit and Maloney from Saginaw. These two men will be charged with attempted murder.

Kenosha, Wis., Nov. 30.—[Special]—The case of the state vs. Tillitson, charged with assault with intent to kill, ended today. It has been in the courts for five years but the prisoner secured bonds and had the case continued from day to day. He failed to show up today and the bond was declared forfeited. The bondsmen settled by paying \$5,000.

## Wholesale Arrests in Kenosha.

## Myers Grand Opera House.

The beautiful play of "Human Hearts" with the original cast and scenic effects will be produced in the opera house, Tuesday, December 3. The play is a companion one to "Shore Acres," but by press and public considered the better play of the two. We clip the following from the New York Tribune of June 9. Second notice to appear: "The dramatic novelty of last week was the production of Hal Reid's beautiful play 'Human Hearts' at Miner's Theatre. Mr. Reid as Tom Logan, the hero, earned the enthusiastic commendation from the large audience present. The play has all the elements of success and cannot fail to make fame and money the coming season, and will prove a source of pleasure to all who are fortunate enough to witness this great performance. As a play it is pure and simple, and good honest purity at that."

## Ida Gaskill's Slayer on Trial.

Omaha, Neb., Nov. 30.—The criminal court room held a "standing-room" crowd yesterday morning when George (alias Nelson W.) Morgan was brought in to be placed on trial for his life for the murder of little 10-year-old Ida Gaskill. Sixty-two witnesses have been subpoenaed for the state to appear, and seven for the defense. Twelve of the state's witnesses are police officers, and most of them were subpoenaed to be used only as a guard. When court adjourned the court ordered the prisoner taken out to jail before the spectators were permitted to leave their seats. Intense excitement is manifested in the trial, yet no talk of lynching has been heard since the discovery of Morgan's alleged crime.

## Making Whisky from Beets.

Omaha, Neb., Nov. 30.—The vast yield of sugar beets in Nebraska and the inability of farmers to dispose of the product as rapidly as desired have provoked some peculiar violations of the revenue laws. A still has been captured in Sherman county from which whisky was being made from the beets. It was owned by Charles Reidill, a farmer. The quality was good, and fears are entertained by revenue officials that others will engage in the business.

## Crusade Against Socialists.

Berlin, Nov. 30.—The police have summarily closed eleven socialistic clubs here, including six of the Reichstag electoral clubs, the club of the socialist press committee, that of the local committee of the socialist society, the club of the Socialist party delegates, and that of the central committee of the German Socialist party.

Milton, Nov. 29.—Col. Smith's lecture on "The Songs of Patriotism," at the college chapel, Wednesday evening, was a splendid effort. It was very instructive, eloquent and inspiring. He must have gained the large fund of unique and striking facts which he presents after the most patient research. Many of them were totally new. Besides his delivery was winning and forcible. His sentences were admirably formed, being clear and direct. He used no manuscript, and spoke with exceeding earnestness and power. A poetic spirit seemed to have molded and uplifted his thoughts and his utterances. He was in fullest sympathy with his theme. The audience was deeply moved by his vivid description of the power exerted by some of these songs over soldiers in the confusion and heart of battle, as well as in stirring the enthusiasm of vast crowds of people deliberating upon vital questions when the fate of a nation has been at stake. The colonel enlisted as a private in the Union Army and soon rose to the rank of captain in the campaigns of the southwest; and to infuse into his actions the intense love of his adopted country which his services seemed to have aroused in his heart. ### AN OPEN LETTER TO THE PEOPLE

Rev. V. E. Southworth Has Something to Say to Janesville Folks.

Friends: Through the courtesy of the press I desire to make the following statements: On Sunday next (December 1st), at 5 p. m., a series of Culture Club Lectures will begin. This series is to continue at the same hour and place on successive Sundays until May 17, 1896. The general subject is "Christianity and Its Organized Subdivisions." The purpose of this course of lectures is by diffusion of information with regard to the various christian sects to destroy the misconceptions and misunderstanding which now divide us. I am convinced that the things we hold in common, the things we all love, are more important to us than the things with regard to which we disagree. If a better understanding of each other's position will inspire us with kinder thoughts for one another and make us more willing to co-operate against the evils of our common life, is it not worth our while? What we all love is truth. What we all are seeking for is the uplifting and saving of our fellow men. We want the kingdom of righteousness and truth to exist here in our city. The clerical representatives of all our churches have been invited to speak, each in behalf of his own organization. Some have consented to do so. Others have for reasons of their own refused to do so. So far as possible representatives of each body will be secured. When this can not be done I will endeavor to state the facts with regard to the sect under discussion with perfect impartiality, and an opportunity will be given for any one in the audience to correct my misstatements.

Let us see if we cannot come to a closer knowledge of each other's doctrinal views and as a result be able ever after to treat each other with a more generous and christian like consideration. We invite any one who feels disposed to help in the work to communicate with us as soon as possible. Always heartily.

VICTOR E. SOUTHWORTH.

Pastor of All Souls, the People's Church.

### TO WEAR ROBES IN SICK ROOMS

Important Reform Decided Upon By the Physicians of the City

Janesville physicians have voted to adopt a uniform robe to be worn when attending cases of contagious disease. This move is one in which the state board of health very properly takes a deep interest, a representative of the board being present at the Janesville meeting. It is something in which the people are most deeply concerned, as well, and which they are watching closely. The use of a robe follows very naturally after the regulations imposed upon members of quarantined families. If the physician who goes from house to house is to take no precautions why require any of others?

That the physicians of Janesville lead the state in this matter is subject for congratulations. The move is for the public good and the benefits will be recognized speedily. The robe selected is of black cloth, buttoning at the throat and extending to the feet. It protects the clothing at every point and is carried in a receptacle that will make the communication of infection impossible.

### MELBA CONCERT COMPANY HERE

They Went Through on a Special Train This Morning.

The great Melba Concert Company was in Janesville today, but for a short time only. The company arrived in the city at 9:15 on a special train consisting of three coaches. They came direct from St. Paul, and after a change of engines in this city, pulled out for Chicago. Conductor James Clark took the train here, he hauling out action to "whirl them along."

## THE HOUR GLASS

Time Honored Reverence in Which it is Held.

Something of its Mysterious Origin and Associations.

Lessons Which May be Drawn From its Infallibility.

Old Father Time displays the hour glass as an emblem of the speedy flight of years. It teaches none the less the brevity of human life. How quickly its atoms fall; how rapidly the period of our mortal existence hastens to its close. Brain throb and heart beat are but ticks which count the minutes as they go.

The pages of the daily press are filled with announcements of deaths, sudden and inexplicable; deaths of men cut down in their prime, of men we thought perfect pictures of health as we passed them on the street. Hurrying past on their missions of pleasure or profit; always in a rush they never stop or rest, they at length die in the harness. They illustrate this "age of progress"—progress toward the grave. Why did they die? Why were these men taken and others left who seem so inferior to them in physical strength? Because they did not take care of themselves. They did not heed that silent monitor, the hour glass of their physical constitution. They did not listen to the sound of its falling sand, nor heed the measure of its flow.

The merchant, the clerk, the book-keeper, the professional man, the mechanic, the toiler at loom and spindle, the busy housewife and mother hurrying through the bustle of business of work, never reflects how much vital energy they constantly use up. Each and all keep delving, toiling, buying, selling, struggling, and the sands in the glass keep falling.

At length there is an end. The limit is reached, the sands are exhausted; "time is up;" a mournful procession and a new-made grave.

It is the old, old story. They did not heed the lesson that human experience has been teaching these many centuries.

Watch the hour glass of your health; heed its falling sands and count them as they go. Be wise in season: gird up that weak spot, strengthen that tired nerve; put new vigor into weary brain, heart and muscle? By taking the remedy nature has provided, Dr. Greene's Nervura blood and nerve remedies. It is best fitted to stay the hand of the destroyer. It does not hesitate but acts at once. It gives you health, keeps you strong and well. It cured Dr. Louis H. Moreau, who was formerly a faithful member of the police force of Fall River, Mass., but who resigned his position to enter the livery stable business. He has taken five or six bottles of Dr. Greene's Nervura blood and nerve remedy for nervousness and weakness and found it invigorating and rejuvenating. He says that the effects were of much benefit to him when he was on the police force, and he believes they would have been more prompt for good, had he taken the medicine regularly instead of intermittently. Mr. Moreau's health is now good, but he says that in case of a return of nervousness or weakness he shall recommence taking the Nervura. His place of business is at 57 and 59 Flint street, Fall River.

Try if you are nervous, weak, tired and run down; if you pass restless or sleepless nights and wake with dull head, feeling tired, languid, without energy or ambition to take hold of your day's work. Take it for dyspepsia, indigestion, biliousness, kidney or liver complaint for the rheumatism or neuralgia indeed for any of the manifold evils which result from weakness and impure blood. Remember that Dr. Greene's Nervura blood and nerve remedy never fails to cure.

This medicine is recommended by doctors, indeed it is the discovery of a prescription of a well known physician, Dr. Greene of 35 West 11th street New York City the most successful specialist in curing nervous and chronic diseases. The doctor can be consulted in regard to any and all cases, free of charge, personally or by letter.

### MANY PEOPLE ARE DESTITUTE

City Missionary Mary Kimball Has Many Calls for Help

Within the past few days an unusually large number of cases of destitution have been reported to City Missionary Mary Kimball. The majority of them are cases where immediate aid is necessary. Among them were families in Spring Brook and Riverview Park where homes were without either food or fuel. A case on Terrace street was looked into where both the husband and wife were sick, helpless and poor. Miss Kimball has a number of other cases to investigate where the poor have applied in person and her good work is appreciated by all whose sufferings are relieved.

## Home Decoration.

"How things have changed since you and I were young, Becky. The old parlor, shut up tight year after year, and only used on state occasions; in it the set of hair-cloth-covered furniture, the what-not in the corner, the old lion rug, the vase on the staid old mantle, two or three quaint oil paintings, the large figured Brussels carpet and a precious little sunlight." HOME IS DARKENED BY DEATH

Mrs. Mary M. Davis.

The funeral services of Mrs. Mary M. Davis, whose death was chronicled in a recent issue, took place at the Congregational church at Emerald Grove, Nov. 21, at 2 p. m., Rev. G. Hammond officiating. Mary Melissa Sparrowk was born in the town of Macena, on the St. Lawrence river, New York, May 27, 1843, and died Nov. 18, 1895, at the age of fifty-two years, five months and twenty-one days. She came to Wisconsin with her father, rather, three brothers and three sisters when but four years of age and settled near Emerald Grove, near which place she resided until her death. She was married to George Bird Nov. 14, 1858. Two children were born to this union, a son, George Harry, who died when but three years old, and a daughter, Mrs. Jennie M. Buel of Schoolcraft, Michigan. She was married again Nov. 21, 1857 to William Davis, and one daughter was born to them, Albert, who was spared to care for her mother through her illness. Mrs. Davis had been in poor health for two years but was not confined to her bed until two weeks before she died. Although her sufferings were painful in the extreme she bore it all with that patient Christian fortitude that ever characterized her life, and expressed to her friends as being ready to depart and be with Christ. She was laid to rest in the cemetery at Emerald Grove by the side of loved ones gone before, there to await the resurrection of the just. Her memory will long be cherished by the many friends who knew and loved her for her many deeds of kindness.

## THANKSGIVING DAY NEWSPAPERS

The Oshkosh Northwestern put on some special style in honor of Thanksgiving day, and made an excellent showing. The Northwestern is a thoroughly good newspaper, and does everything well.

The Milton Journal was a sixteen page issue this week, in honor of Thanksgiving day. Considerable new matter, pertinent to the occasion, was also used, and the issue was a credit alike to the village and the publishers.

The Rockford Star was a twenty-four page issue. The special matter was unusually lively and interesting, and the illustrations were numerous and artistic. The Star claims they issued the largest paper that ever came from an Illinois office outside of Chicago, and the edition was a credit to the "hustlers" who make that excellent paper.

The Beloit Daily News got out an eight-page edition, with considerable special matter, and portraits of Mayor Smith, Marshal Appleby, Postmaster Wickem and Attorney J. W. Bates.

After the ceremony an elaborate wedding dinner was served. The bride was the recipient of many elegant and useful presents. The future home of the young people will be in the town of Fulton.

Hay-Wason

Tuesday evening, Nov. 26 at the home of Robert Barless in the town of Harmony occurred the marriage of Alexander Hay to Miss Mary Wason of Harmony. The ceremony was performed by Rev. S. G. Americans in Scotland.

At Melrose, says Walter Besant in the Queen, I fell in with the last scattered remnant of the rear guard of the great American invasion. It consisted of about a dozen staying in my hotel and I dare say twenty or thirty more staying in the other hotels of that little show place. A fortnight before 500 Americans visited Melrose in three days. They ate up everything.

"Mostly," said the waiter, tearfully, "they drink water. If it is not water it is coffee, and then they want more hot milk and after that more coffee. They go to bed at 9 and at 6 they are up again and out for a walk."

From Melrose they visit Dryburgh abbey, Abbotsford, and the abbey church of Melrose, all that is left of the monastery. Then they go off on their journey again. At Abbotsford I was kept waiting for half an hour while a party of American boys bought up all the photographs, cups and saucers, memorial boxes and albums that were for sale, comparing and considering and asking questions just like girls in a ribbon shop. The father of one apologized very handsomely for the delay.

Well, it is not every day that the boys find themselves at Abbotsford; it was delightful to see their enthusiasm. The rooms shown, with their contents, would make even an oyster enthusiast. There is, however, one thing wanted. It is easily remedied. There should be hung up in the entrance hall a card with this notice:

"Gentlemen are invited to remove their hats in Sir Walter Scott's study and library. Other people must."

MONEY MADE BY A CORN SHREDDER

Robert Clark (Much Pleased with the Results in His Case.

Corn shredding has always been considered a slow way of getting corn husked. A short time ago, however, H. S. Carhart was at the farm of Robert Clark, Rock Prairie, and in eleven hours with husker and shredder got out nearly 800 bushels. This was with two men in field and two more with teams hauling from field, and man and team cribbing corn. When the job was done everything was under cover. The corn came from a field of eight acres, and had been cut and bound by a McCormick corn harvester.

"Delmonico's at 6" was the bill at the Myers Grand last night and a good sized audience enjoyed the performance fully. It was uproariously funny and the company presenting it was excellent. LEWES.

It will not be long before American skilled laborers will be demanding protection from Japanese manufacturers, which are already seeking a market in the United States. Protection will be needed not only to pay Americans living wages but to retain our home market for home manufacturers.

Why should anybody be surprised to know that a majority of the republican members of the New York legislature stand by the platform that was adopted by the state convention?

The change in the aspect of Turkish affairs indicates that England made a better bargain with the sultan than could have been secured from the great powers of Europe.

Mr. Reed may have shaved off his mustache because of the growing tendency of the caricaturists to make him look like Mr. Cleveland.

There is a suspicion that Mr. Brice will devote more time to railroad business than to the business of the senate this winter.

Everybody else having had a say as to what congress will do, congress will now be allowed to talk for itself.

Mr. Cleveland declined to accept Senator Chandler's suggestion for the annihilation of the railroad pool.

Probably the most dangerous sentiment that can be felt by a party leader is that of revenge.

## EMINENT TESTIMONY

Regarding the New Discovery for Curing Dyspepsia and Indigestion.

Dr. Hartzman, who has made many tests of the new dyspepsia cure, is very enthusiastic in his praise of this excellent preparation. It is not a secret patent medicine, but is composed of pure pepsin, bismuth, fruit salts and vegetable essences, made into pleasant tasting tablets or lozenges and sold by druggists at 50 Cents per package, under the name of Stuart's Dyspepsia Tablets.

Dr. Hartzman states that Stuart's Dyspepsia Tablets cure dyspepsia and weak stomachs, because they possess the peculiar power of digesting whatever wholesome food is taken into the stomach. They do not act on the bowels like cathartics, but act entirely on the food, digesting it thoroughly and quickly, giving the stomach a chance to rest and recover its natural strength, which it invariably will do after a course of Stuart's Dyspepsia Tablets. If your druggist hasn't them in stock ask him to order a small quantity from his wholesaler.

## GROUND TO DEATH BY CRUEL WHEELS

**BRAKEMAN WILLIAM KOEPP  
KILLED AT FOOTVILLE.**

Fell From an Engine While Making a "Flying Switch" and Two Cars Passed Over Him—Body Dragged Sixteen Rods—Home Was at Merrimack, Wisconsin.

William Koopp, a C. & N. W. brakeman was ground to death by two freight cars at Footville at 7:30 o'clock last night, his body being terribly mangled.

Koopp's home was at Merrimack, Wis., and he was the brakeman on the "way freight." At Footville it became necessary to make a "flying switch." Koopp was riding on the footboard of the engine, and had just "pulled" the coupling pin when he lost his footing. An instant later he was lying on the rails and before he realized his danger, the wheels of two freight cars were grinding his life out. Koopp was dragged fully sixteen rods before the cars came to a standstill. Then his body was taken from underneath the cars and Mrs. Lacey and Lynn of Footville, were called.

They found that Koopp had been fatally injured. One leg was broken in two places; the other had been broken once; his hip had been dislocated; one arm had been literally ground off; his head bruised and gashed and internal injuries inflicted. The engine was at once sent to Evansville for Dr. Evans and Dr. Collins but aside from making the sufferer comfortable but little could be done and Koopp died at 9:30 o'clock.

His relatives were notified of his death. It is not known whether or not the dead man was married but it is thought that he was not.

## POLYCLINIC CHAIR FOR METCALF

High Compliment Paid to the Janesville Physician—Local Changes Result.

There was announced today the association of Dr. J. G. Hughes with Dr. W. B. Metcalf, a move of considerable significance. It results from Dr. Metcalf's election to a chair in the Chicago Polyclinic, where he will lecture twice a week on medical and surgical diseases of the stomach. He has also been offered the chair of operative and clinical surgery in the College of Physicians and Surgeons, the chair held by the late Dr. Henry Palmer. This he has not yet decided to accept. His association with Dr. Hughes will be recognized as an excellent move, as Dr. Hughes, who held the post of assistant superintendent in the Mendota asylum for two years and in the Winnebago asylum for a year, is a man of experience and ability. The firm will occupy the offices now held by Dr. Metcalf in the Lappin block.

## LEAF TRADE QUIET IN THIS MARKET

BUT LITTLE IS DOING ABOUT THE COUNTY.

The Leaf Says the Activity of a Few Weeks Ago Has Practically Subsided and the Situation at Edgerton is About the Same—The Sales Reported.

The Janesville tobacco market, "The Leaf" says, has been suddenly stricken with an attack of holiday quietness, superinduced by an unusually severe "cold snap" with the thermometer uncomfortably near the zero point.

Among the transactions reported are: 60 cases '93 and '94 purchased by Joseph Grundy; 20 cases of '93 and '94 purchased by George H. Bumill and several small lots bought by S. B. Heddles and also by Soverhill and Porter.

The retail trade to manufacturers still holds up fairly well.

The stormy weather of the past week has caused our buyers to forego riding to any extent.

At Edgerton the situation is much the same. The Reporter says but few dealers are riding through the growing sections and the aggregate transactions in the different market points has declined materially. Choice selections of either old or new leaf are in good demand and there are plenty of buyers ready to purchase them, when obtainable, but the great bulk of tobacco remaining in first hands falls below the first standard.

Sales reaching us since last report are:

E. E. Smithback, 6 acres '95 at 7 1/2 cents a bundle; N. E. Smithback, 6 acres '75 at 6 cents a bundle; And Anderson, 5 acres '95 at 6 cents a bundle; Geo. Barton, 3 acres '95 at 6 & 1 cent a bundle; D. W. Townsend, 23 cases of '94 at 5 & 2 cents; Wm. Condon, 23 cases '94 at 6, 5 & 1 cent; J. Kramer, 20 cases '94 at 6, 5 & 1 cent; J. H. Holton, 18 cases, '93 at 5 1/2 cents; Sam Larson 17 cases '92 at 9 1/2 cents; Lysager Bros. 37 cases '93 at 7, 6, 4 & 3 cents.

C. L. Culton reports the sale of 200 cases of old leaf and And Jensen a few lots of '92. Conway, Child and Shuman & Stewart have received goods from growers during the week. Mr. Schovering a Connecticut packer has been looking through the markets of the state this week.

## MRS. VODRE'S DEATH AND HOW IT CAME

CORONERS INQUEST HELD THIS AFTERNOON.

Drs. Palmer, Woods and Gibson and Several Chicago & Northwestern Officials Testify as to the Circumstances Surrounding the Tragedy—No Word From Relatives.

Mrs. Cynthia Vodre's death was inquired into by a jury assembled in Justice Prichard's court this afternoon. Drs. Palmer, Gibson and Woods, Chief Acheson, the members of Conductor Garwood's train crew and the C. & N. W. section gang testified, their stories throwing no new light on the case.

All three of the doctors thought that death had resulted from congestion of the brain. They found many wounds on the head, and said that ribs, arm, thigh and ankle had been broken. Apparently Mrs. Vodre had plunged out of the car window, struck on her head and turned several somersaults.

Lawrence Vodre, the little grandson, was brought from Madison by a detective, to tell what he could about the affair.

He said that after he and his grandmother were locked in the car, she broke a water closet window with a lump of coal and started to climb through, feet first. He caught her arms and tried to hold her, but she slipped through, and he saw her strike the ground on her back.

Justice Prichard conducted the inquest. The jurymen were David Conger, John Kruse, William B. Baines, James Mansur, H. C. Proctor and A. Kapsliski, and after viewing the remains yesterday they adjourned until 2 o'clock this afternoon.

The jury decided that nobody was to blame for her death.

No word has been received by the undertaker as to disposing of the body. The ticket which Mrs. Vodre had was bought in Montreal.

JOHN REYNOLDS returned to his home in Chicago last evening after visiting his brother Harry.

## Some timely advice.

With but a few short weeks between us and Christmas, it behooves the always tardy buyer to bestir herself and see if she can not for one year at least, be in time with gift purchasing, so that she does not have to, on Christmas eve, sadly pay for the besagglled remnants of what once were a goodly showing of charming novelties. Our store, even now, is overflowing with dainty, pretty things for presents, and many ladies, tremendously foresighted, have already begun their preparations for the holidays. Why don't you join in with the rest? A much better time to trade now than when we are rushed.
